Official User Manual & Product Reference | INSIGHT TOOLS

1. Introduction & Overview

Insight Player v2.0 is an All-in-One Multimedia Workstation designed for Windows 10 & 11 (64-bit). Powered by Qt 6 and LibVLC 3.0, it combines high-performance 4K/8K HDR playback with a suite of professional media manipulation tools, 200% volume amplification, physical disc engines, and deep Windows Explorer integration.

What's New in Version 2.0:

- Seamless Explorer Double-Click: Instant playback upon double-clicking any media file.
- Windows Open with Integration: Full system registration for video and audio extensions.
- 100% Arabic & Unicode Path Support: Perfect fidelity for complex Arabic file paths.
- 200% Audio Volume Booster: Overcome quiet dialogue and low-gain files with 2x amplification.
- Single Instance IPC: Route incoming media to the active player window instantly.
- Dynamic Native Waveform Visualizer: 60 FPS real-time audio spectrum with track metadata.
- Media Converter & Toolkit (Pro): Transcode, lossless trim, and extract/burn subtitles.
- Physical Disc Engine (Pro): Play DVD discs, ISO images, and VIDEO_TS folders with menus.
- Studio Video Effects & 10-Band EQ: Real-time color grading and acoustic frequency control.
- Fullscreen Floating HUD: Auto-hiding control bar for distraction-free viewing.
- Video Storyboard Generator (Pro): Export visual contact sheet thumbnails of videos.

2. Opening Media in Insight Player
- Double-Click in Windows Explorer on any audio or video file.
- Right-Click -> Open with -> Insight Player.
- Drag & Drop any files or folders directly into the player window.
- Toolbar / Menus: Use Open File (Ctrl+O), Open Folder (Ctrl+Shift+O), or Open Disc (Ctrl+D).

3. Keyboard Shortcuts Reference
- Space: Play / Pause toggle
- Left / Right Arrow: Seek 5 seconds backward / forward
- Shift + Left / Right: Seek 15 seconds backward / forward
- Up / Down Arrow: Adjust volume by 5% (up to 200% Volume Boost)
- M: Mute / Unmute audio
- F or Double-Click: Enter / Exit Fullscreen
- Esc: Exit Fullscreen mode
- S: Capture High-Resolution Snapshot with instant preview
- P: Toggle Playlist sidebar
- E: Open Studio Video Effects & 10-Band Equalizer (Pro)
- Ctrl + K: Open Media Converter & Toolkit (Pro)
- Ctrl + T: Generate Video Storyboard / Contact Sheet (Pro)
- Ctrl + D: Open DVD / Disc Navigation (Pro)
- Ctrl + L: Activate License

4. Media Converter & Toolkit (Pro)
Accessible from Tools -> Media Converter (Ctrl + K):
- Transcoder: Convert between MP4, MP3, MKV, AVI, WEBM, WAV, and OGG.
- Lossless Trim: Fast timeline cutting with precise Start and End timestamps (HH:mm:ss).
- Subtitle Extractor: Export embedded subtitle streams to clean .srt files.
- Subtitle Burner: Hardcode subtitles onto video or mux soft subtitles into MKV containers.

5. Studio Effects & 200% Audio Volume Booster
- 10-Band Graphic Equalizer: 60Hz, 170Hz, 310Hz, 600Hz, 1kHz, 3kHz, 6kHz, 12kHz, 14kHz, 16kHz.
- Preamp Booster: Add up to +12.0 dB gain for low-volume audio tracks.
- 13 Acoustic Presets: Rock, Pop, Classical, Dance, Full Bass, Live, Party, and more.
- Real-time Color Grading: Adjust Brightness, Contrast, Saturation, Gamma, and 360 Hue.

6. System Requirements
- OS: Windows 10 or Windows 11 (64-bit)
- Engine: LibVLC 3.0 with Direct3D11 / DXVA2 Hardware Acceleration
- Framework: Qt 6 C++ High-DPI GUI
